## Interpretive Snowshoeing Winter 2010

Information for Resellers

### Season

December 27 - March 31. Season depends on snow conditions.

Regular snowshoe trips are available on **Saturdays and Sundays**. From December 27 - January 2, they are available everyday.

Private trips are available any day of the week..

### Group Size

**Regular trips:** maximum of 8 people; children younger than 6 are not accepted.

**Private trips:** maximum of 10 people per guide; up to 2 guides are available; children younger than 6 generally do not enjoy snowshoeing.

### Event Details

We have a number of trails to choose from and we usually decide the night before which is the best one given current snow conditions. All of our trails provide views and an opportunity to explore animal tracks, animal sign and the beautiful forests of the Rockies.

Transportation is not provided. For clients without transportation we can begin snowshoeing directly from the Lake Louise village hotels or from the Chateau Lake Louise area. Others should bring their rental car to the meeting location.

We provide snowshoes, overboots (when necessary), dark cocoa hot chocolate or herbal tea, homemade power bars and guiding.

Clients should wear warm, snow-shedding clothing (ski clothing is perfect). They should bring winter boots if they have them, or sturdy walking shoes.

We call the client the night before in order to make a final confirmation and to discuss footwear.

A small amount of extra equipment is available: snowshedding jackets, winter hats, mitts, gaitors and packs.
